

Asset Based Community Development  
for social inclusion workshop

**5th to 6th July 2010**

An exciting opportunity exists for individuals who have an interest and commitment to Asset Based Community Development

**If you live and work in the community  
then this workshop is designed for you!!!**

## ABCD is...

ABCD is a powerful approach to community development with a particularly strong approach for supporting a productive and inclusive life for people with a disability, older people, marginalised young people, refugees, long term unemployed and people with a mental illness.

## Workshop Program

- Practical steps to find, map and engage a diverse range of community assets
- What families can do together they can't do alone
- Building a growing circle of people and groups working together for inclusion
- Harnessing connected assets to build a hopeful future for community
- What agencies can do to help communities become more inclusive
- In-depth understanding of ABCD practice, tools and resources
- Strategies that work; circles, connections, mapping, mobilising
- Developing your plan of action

## Your Trainer- Ted Smeaton

of Inspiring Communities and the ABCD Institute  
Ted is a passionate presenter who has developed and implemented Community Building projects throughout Australia, New Zealand and Asia.

"Ted is a master communicator, and facilitator. He brings a unique set of experience and skills in community building and ABCD related work which makes him an invaluable resource."

Jodi Kretzman, co founder of the ABCD Institute
